

Brain Buster Challenge 2010
Problem Solving Round

Teamwork Scoring Criteria

In addition to the score earned by solving problems, each Problem Solving team will receive a teamwork score (0 – 10 points). The two scores will be averaged to determine the team's final score for the round.

Judges will award teams 0, 1 or 2 points in each of the following five categories:

LISTENING: team members are attentive to proctor's directions, follow them accurately, and ask the proctor questions when there is uncertainty

COMMUNICATION: team members are attentive to one another, and provide the opportunity for each member's input to be heard, clarified and considered

COOPERATION: team members deliberate and reach consensus before acting; they provide mutual support and encouragement

EFFICIENCY: team members formulate a strategy, carry out tasks in a logical sequence, use division of labor when appropriate, and manage their time well

ATTITUDE: team members approach tasks and interactions both positively and constructively
